

RISE-N-SORT SYSTEM™

Born of the Industry, for the Industry.

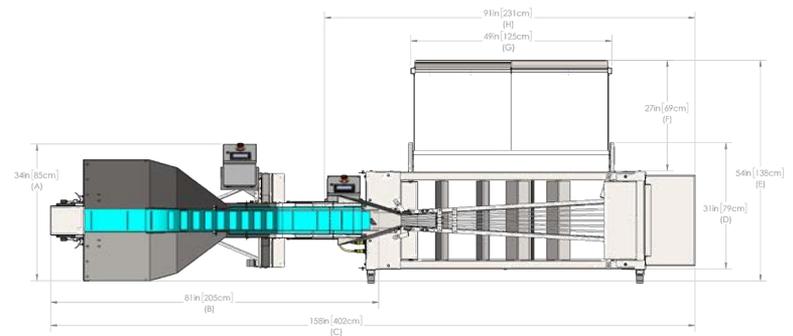

GREENBROZ

MACHINE DETAILS

The **Rise-N-Sort System™** is capable of sorting 360 pounds per hour (180x faster than hand sorting). Your flower starts in the Rise Conveyor's 15-pound capacity hopper, which can be continuously fed to accommodate your processing needs. Then the flower is conveyed in uniform batches into the Precision Sorter hopper, where it flows down onto the sorting bands and is processed out to the Sorter Table per your size settings. This process eliminates human/ contamination touchpoints, mitigates employee repetitive motion injury risk, and creates a streamlined sorting system that is completely unique to the cannabis and hemp industries.

- Sort 360 lbs./hour
- Hopper Capacity: 15 lbs.
- HMI Digital User Interfaces
- Whisper Quiet / Washdown Ready Motors
- Sorting Sizes: Adjustable to User Preference
- Adjustable Speed Settings
- Construction: Surgical-Grade Stainless Steel, Food-Grade Stainless Steel, Polyurethane, UHMW
- One-Year Manufacturer's Warranty
- Units Feature Locking Wheels for Mobility
- System Weight: 650 lbs.
 - Precision Sorter - 300 lbs.
 - Rise Conveyor - 200 lbs.
 - Sorter Table - 150 lbs.
- Dimensions:
 - Precision Sorter - 32"W x 47"H x 109"L
 - Rise Conveyor - 34"W x 66"H x 82"L
 - Sorter Table - 30"W x 33"H x 50"L
- Precision Sorter Unit Power
 - 110VAC, 60Hz 6A 660W (US)
 - 220VAC, 50Hz 3A 660W (International)
- Rise Conveyor Unit Power
 - 110VAC, 60Hz 3A 330W (US)
 - 220VAC, 50Hz 1.5A 330W (International)

*All GreenBroz machines can be made compatible with international power requirements.
